Special Monitoring of EL-15, Subpart 5: Technology - Board

Action to be taken: See below

On May 14, 2014 the Board adopted a new Executive Limitation Policy; EL-15 Technology. It is scheduled for its first interpretation by the Superintendent and monitoring by the Board on May 13, 2015.

However, due to the down-time experienced by the District caused by the power outage that occurred the weekend of October 25, 2014, the Board will now conduct a Special Monitoring of EL-15 Technology, Subpart 5. Subpart 5 states "…the Superintendent shall not fail to: 5) Maintain a computing environment that is safe, secure and reliable for students and staff."

The Board may bring action in light of this Special Monitoring.
