Skyline High School Grandstands – Acceptance for Final Completion – Crawford

**Action to be taken: I move the Board approve final completion of the contract work for the Skyline High School Grandstands project completed by Outdoor Aluminum as of August 22, 2016.**

Outdoor Aluminum has completed their contract work for the Skyline High School Grandstands project.

Bassetti Architects recommends the Board approve August 22, 2016 as the date of final completion in accordance with their Letter of Final Acceptance dated March 2, 2017.

Steve Crawford will be present to answer any questions the Board may have regarding this recommendation.

Re: Skyline High School Grandstands

Subject: Final Completion

Mr. Mike Archer:

To the best of Bassetti Architects knowledge, information and belief, the Work has been completed in accordance with terms and conditions of the Contract Documents and that the entire balance noted in the final Certificate of Payment is due and payable.

At the Skyline High School Grandstands, Issaquah School District has constructed prefabricated aluminum grandstands with seating capacity 2,550 persons. Horizontal metal panel siding encloses the underside of the grandstands, creating an area of approximately 4,500 square feet to house utilities for the stadium complex. The grand stands are located at the West side of the athletic field.

The date of Final Completion is 8/22/2016

We enjoyed working with you on this project and look forward to being of service to the Issaquah School District in the future.

Sincerely,

Susan Conway  
Project Manager  
Bassetti Architects
