

Executive Summary

Starting with the July 2022 Budget Status Report, the District adopted a more detailed format. This expanded report provides additional information to aid in fiscal transparency and a general understanding of organizational financials.

This monthly financial report is intended to meet the requirements of Washington Administrative Code (WAC) 392-123-110 where each school district shall prepare and make available monthly budget status reports and a statement of revenues, expenditures, and changes in fund balance along with any other pertinent financial information to the Board of Directors.

Governmental Funds

The district records transactions and budgets in five separate funds:

General Fund (GF)	This fund is used to account for all expendable financial resources, except for those that are required to be accounted for in another fund. State, federal, and local revenues pay for the annual operations of the school district. This includes teachers, food services, maintenance, curriculum, assessment, security, student transportation, and etc.
Associated Student Body (ASB)	This fund is accounted for in the District's financial statements as the financial resources legally belong to the District. As a special revenue fund, the ASB fund collects fees, fundraisers, and donations from students and the community to fund student activities. These revenues are restricted to the benefit of student activities.
Debt Service Fund (DSF)	This fund is used to account for the accumulation of resources for and the payment of matured general long-term debt principal and interest. Revenues are received from taxpayer-approved bonds for property taxes and interest earnings.
Capital Projects Fund (CPF)	This fund is used to account for resources set aside for the acquisition and construction of major capital assets such as land and buildings. Revenues are received through the sale of voted bonds, special levies, sales of buildings, and interest earnings.
Transportation Vehicle Fund (TVF)	This fund is used to account for the purchase, major repair, rebuilding, and debt service expenditures that relate to pupil transportation equipment. Transportation Vehicle Fund is financed by the state reimbursement to school districts for depreciation of student transportation equipment.

I. Enrollment

Since the pandemic during the 2019-20 school year, the District lost over 1700 FTE (8%) in enrollment. The enrollment has increased slightly than the prior year as of June 2023.

II. GENERAL FUND

The General Fund includes resources from local, county, state, and federal sources. These revenues are generally used for financing the operations of the school district such as the classroom, classroom support, special education, food services, maintenance, and transportation. In the state of Washington, the General Fund may pay for Associated Student Body (ASB) expenditures even though there is an ASB Fund.

Revenues

The largest portion of general fund revenue comes directly from the state in formula factors and determined by enrollment. The formula is set by legislature for base salaries, employee benefits, full-time equivalent allocations, materials, supplies, and operating costs. The state also provides categorical funding for programs such as Special Education, Transportation, English as a second language, and Learning Assistance.

The chart below shows the percentage of state apportionment received each month. The fluctuations in the percentage of revenue received each month impacts the variations in cash flow for the District.

Table 2. 2022-23 State Apportionment Payment Schedule

The second largest source of funding for the operations of the school district is the local levy approved by the community every four years. The local levy is capped at \$2,500 per student or \$2.50/1000 of assessed value whichever is less adjusted by consumer price index (CPI) annually. In April 2022, the community approved a four-year EP&O Levy. Below is the maximum the District could collect and may collect less dependent on student enrollment or CPI.

Table 2.1. EP&O Levy Maximum

\$61,000,000	\$64,000,000	\$67,000,000	\$70,000,000

The community also supports the operations of fee-based programs such as Food Service program, Before & After School Care through tuition and fees. The District receives a minimal percentage of federal funds for the Special Education and Title programs. The district received approximately 70% in state funding, 21% in local sources, and 9% in federal sources the prior school year.

In the three-year revenue comparison, the revenue increased 3.7% from June 2022 to June 2023.

Expenditures

The largest portion of general fund expenditures are certificated salaries and goes directly into the classroom. This provides for teachers, counselors, librarians, principals, psychologists, occupational therapists, speech language therapists, physical therapists, and professional development. Certificated salaries also include classroom support positions such as nurses and administrators.

The second largest portion of expenditures is classified salaries. This includes maintenance, custodial services, food service, security, bus drivers, mechanics, office professionals, and administrators.

As of June 2023, 79.7% of the \$162 million budgeted certificated salaries were expended. Employee benefits and taxes are paid by the school district and not directly paid to the employees. As of June 2023, 77.4% of the total budget has been expended.

Materials, Supplies & Operating Costs (MSOC) are the remaining portions of the budget. This includes supplies, materials, textbooks, curriculum, contractual services, computers, and equipment. These expenses are necessary to operate the district.

In the three-year expenditure comparison, expenditures increased 4.2% from June 2022 to June 2023. The majority of the dollars occurred in certificated salaries, classified salaries, and supplies due to the cost of living and/or negotiated increases and the cost of services.

III. ASSOCIATED STUDENT BODY FUND

In Washington State, the only allowable special revenue fund for school districts is the Associated Student Body (ASB) Fund. This fund is accounted for in the District's financial statements as the financial resources legally belong to the District. As a special revenue fund, amounts within the ASB Fund may only be used for those purposes that relate to the operation of the Associated Student Body of the District.

The ASB fund is funded through fundraising, donations, and the collection of fees from students and the community for optional noncurricular activities.

For June 2023, the ASB fund showed an increase in revenues over expenditures year-to-date for \$3.7K, most likely due to an increase in activities.

IV. DEBT SERVICE FUND

The Debt Service Fund is used to account for the accumulation of resources for the payment of matured general long-term debt principal and interest. The county treasurer makes payment of interest and principal on bonds from the collected voter approved taxes. The district certifies annually to meet the payments of principal and interest of the voted debt (bonds).

As of June 2023, the fund balance totaled \$31.3 million for future principal and interest payments.

CAPITAL PROJECT FUNDS

The Capital Project Funds account for financial resources that are to be used for the construction or acquisition of major capital assets. The District has two funds that are considered to be of the capital projects fund type: The Capital Projects Fund and the Transportation Vehicle Fund.

V. **CAPITAL PROJECTS FUND**

The Capital Projects Fund is used to account for

resources set aside for the acquisition of land, construction of major capital assets, purchase of equipment, capital improvements, and critical repairs. The Capital Projects Fund is financed by voter approved levies and/or bonds, investment earnings, impact fees, and capital project grants.

In April 2022, the voters of the District approved a four-year replacement capital projects levy.

VI. TRANSPORTATION FUND

The Transportation fund is used to account for the purchase, major repair, rebuilding, and debt service expenditures that relate to pupil transportation equipment. This fund is financed by the state reimbursement to school districts for depreciation of student transportation equipment on a thirteen-year replacement cycle and local levy. The District services 110 square miles and transport students over 1.4 million miles a year. The District has approximately 175 small and large buses in its fleet in order to provide this service. The voters of the also approved а one-year

transportation levy, to be collected in the amount of \$3,000,000 for collection in 2023 to provide school buses.
