

## **OE-17 Sustainability**

Policy Type: Operational Expectation

*The Board believes that integrating sustainable practices into all district operations, curricula and buildings is essential for fostering an environmentally responsible educational environment.*

---

The Superintendent shall ensure sustainability is embedded throughout the District.

### **The Superintendent will:**

- 17.1 Develop and implement a comprehensive resource management plan.
- 17.2 Establish and maintain a robust waste management program.
- 17.3 Evaluate and implement a sustainable transportation plan while considering available District financial resources.
- 17.4 Integrate sustainability education into the curriculum at appropriate grade levels.
- 17.5 Provide professional staff development on sustainability.
- 17.6 Ensure all new construction and renovations meet sustainable building practices.
- 17.7 Develop and implement a long-term plan to minimize the environmental impact of district buildings while considering available District financial resources.
- 17.8 Enhance the resiliency of the District's infrastructure to future environmental impacts.
- 17.9 Communicate information on the District's sustainability programs to the community.
